Team KIF1A: Our Growing Community

April, 2017

August, 2019
Today: Why We’re Here

- **Learn**: About our disease
- **Question**: What is known about our disease
- **Grow**: Our relentless community
- **Empower**: Every single one of us
- **Act**: What really matters
Do you believe in miracles?

USA Defeats Russia in 1980 Winter Olympics, known today as the “Miracle on Ice.”

But...
Finland

What the world forgets: USA vs. Russia was not the gold medal game.

The “Miracle on Ice” would never be remembered as a miracle if Team USA did not show up two nights later and defeat Finland to win the gold medal.

So, while it’s remarkable that we’re all here for this family & scientific conference, we must remember Finland. It’s what we do tomorrow that defines us.
